Range News: John Entwistle has installed the new benches for the shooting tables at the rifle range. Mike Mills completed nearly 40 hours of CAT work at the range - we now have a widened rifle range, a perimeter fire break, a new road across the north end, and a new road in to the law enforcement range. He also leveled off the area for the future trap range. Approximately 300 feet of the law enforcement road has been graveled (part of the dozer work and the gravel was covered by the Law & Justice Grant).

Grants: The asphalt paving coming very soon. The range will be closed for portions of that time and will be announced. Three shelter buildings will be delivered next week and will be placed at the archery range. Plans for shelters at the pistol range are in progress.

Scholarship: Congrats to Jessie Weaver from Easton HS. She plans to go into dental hygiene. We will try to get Jessie to come to the August meeting to tell us about herself.

Hunter Education Classes: The next class will begin on July 17th. Classes run Mon, Wed, and Fri evenings with range day on Sunday.

The range will be closed on Sunday July 23rd from 9 am to about 4 pm. Students must pre-register on-line.

News Bits:

Doug Sargent won the 50/50 drawing for half of the \$26 pot at the meeting last night. He donated it back to the club coffers.

WORK PARTY JULY 15, 8 AM TO NOON(ISH). Bring gloves and water. Bring weed-eaters, shovels. Hope to have a tractor and mower coming. Need to move some sand, gravel, and do some work on the pistol range.

Upcoming Events

Hunter Education Class at Centennial Center July 17th

Work Party July 15th - 8 am

Miss Jessie Weaver, Easton HS,
2017 scholarship recipient

Lead Instructor Trevin Roletto
teaching at range day - June 2017

Range Master Doug Sargent is working on a solar powered electrical system for a cease-fire alarm so all shooters on the line will know when someone needs to check targets. His cost estimates seem very reasonable.

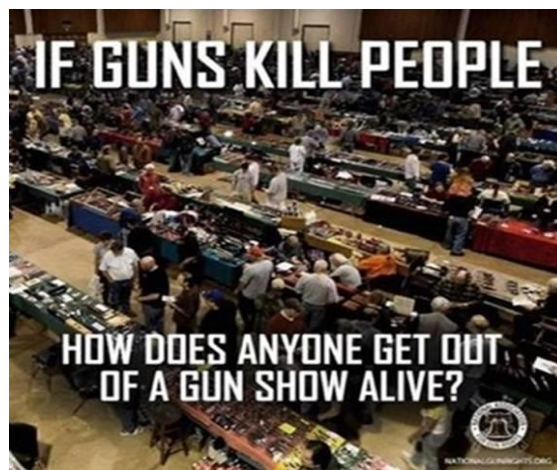

Hunter Ed Instructor Mark Bennett demonstrates the use of a rifle action.

New benches inside the rifle shed. Also, note the dryer felt hanging on front to help control bullet trajectory from the tables. This restricts the view of the horizon, keeping shots down on our range instead of over the hill.

Freshly graveled road down into the future law enforcement range.

Stay safe and cool.
