## NEWSLETTER

ISSUE 35 NOVEMBER, 2015

**RANGE: Short Work Party:** Saturday, Nov. 14th at 9 am at the range. We will get those pesky pistol targets back up and working. We have a crane available and working on a welder. Shouldn't take a lot of people.

The grading permit has been approved by the county. Now we can work with the Operating Engineers School to see if/when they can come out and do the ground work for us. Anyone have access to 70' of 36" used culvert?

We finally heard from the State about the "cultural resources survey" requirement for our grant. A new survey will *not* be required since the wind farm had already satisfied that requirement. Also, we are looking at a different design for the covered shooting benches - one long one on the rifle range, instead of several short ones. Contractor Steve Senger is working up some plans for us. It will mean making an amendment to the original grant.

**BANQUET/RAFFLE:** Annual fundraiser raffle prizes are: A Mossberg mod. 535 ATS shotgun combo (two barrels), a Remington Mod. 738 rifle in .308 with 3x9 scope (Cle Elum Farm & Home), an Echo 5 wt. fly rod, reel and case (Troutwater Fly Shop), and a Diamond Infinity Mod. A12225, right-hand 70lb compound bow and Rinehart Rhino Block target. **Tickets (\$5) available now to buy or sell.** The banquet and raffle drawing will be on Saturday, February 27th, 2016, at the Putnam Centennial Center. Donations for auction items are gladly accepted. A portion of proceeds go to Upper County Scholarship fund.

### MISC:

-Thought some members may be interested in this opportunity. Kesselring's has been a fixture in the gun community for as long as I've been around. It was kind of the go to place for stuff you couldn't find anywhere else. Well they are going away and all remaining stock will be auctioned this month. They have some rifles and a very few handguns but most of the stuff is very high value optics, Night Force, Aim Point, Trijicon, Leupold just to name a few, Binoculars as well. There is also quite a bit of reloading and ammunition stock. There is an opportunity for on-line bidding as well. They don't have a good catalog for this auction but you can open the link and scroll through the pictures to see what is available. Enlarge the stuff you're interested in. I am guessing there will be quite a few gun shops with reps. there but there should still be some great buys. Preview Nov, 16th and 17th, sale is on the 18th and 19th starting at 9 A.M. <http://murphyauction.com/Auction/Details/4771>

-The new Facebook site is: [www.facebook.com/CascadeFieldandStreamClub](http://www.facebook.com/CascadeFieldandStreamClub) Thanks to Eric Jackson for setting that up for us. If anyone has info, photos, etc., send it to me and I will pass it on to Eric.

-Board member, Jerry Rocky, is collecting cash, clothing (clean, in good condition), camping gear, thermos, pots n pans, bedding, etc. to support fire victims in Chelan and Okanogan Counties. Donations can be dropped at Reliable Auto Repair in Cle Elum and Jerry will transport it to various outlets up north, in the name of Cascade Field & Stream Club.

This Heineken mini-keg is not a legitimate target!! And, whoever brought it and shot it should have taken it back out with them.

Neither is the frame of the pistol targets stands, shoot the knock-down targets!

Road-killed monster bull on I-90 near Easton (Unknown DOT employee).
