Range Master Doug Sargent will start the new Orientation Program at the rifle range tomorrow, Wednesday, at 8 am. This orientation is now a requirement for all members and is necessary so everyone knows what the rules are and stays safe. There continue to be problems with people leaving brass/steel casings all over the ground. And, there are more holes in the baffle beam. Orientations will continue on Saturday and Wednesday mornings at 8 am

The By Laws committee still has some tweeking to do before we can present it to the membership for a vote.

At the meeting last night some new committees were formed. The **fishing** derby committee will plan and implement the Kid's Fishing Derby set for June 9th at Lavender Lake. We still need a couple more people for the **scholarship** committee. A **membership** committee is being formed and a discussion on a membership cap has been started. Need a couple more people to sign up for this group. And, a **security** committee needs to start coming up with viable ideas on how to control problems at the range. All ideas are on the table and plans will be submitted to the Board of Directors for action. One member donated \$100 toward a surveillance camera system.

Having the baffle project done was the final bit required for the state RCO Grant. A final billing and final report have been sent in to Olympia. They will not be able to come inspect the range for a while and requested photos of the project. A "public shooting" hours sign, required by the grant due to using public funds, will be posted at the entry gate, as well as the website and Facebook.

President Mark is working with M2 Fencing, who built our main gate, on an electronic locking system.

We had 30 members present at the meeting. Rick Vaughn won half of a nice pot in the 50/50 drawing.

Upcoming Events

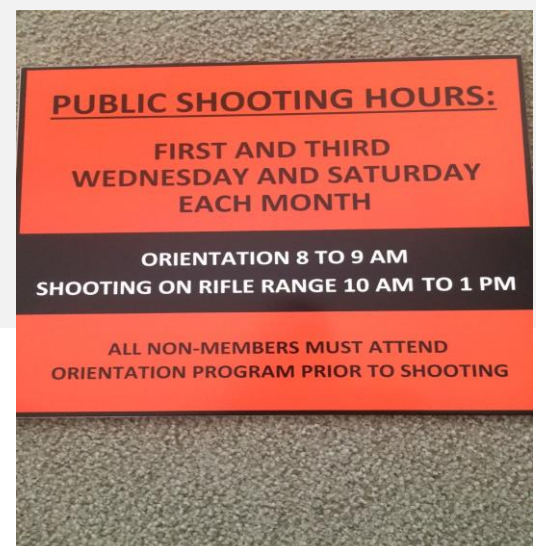

Hunter Education Classes:

June 18th and July 16th at Centennial Center in Cle Elum. Preregister at: www.wdfw.wa.gov/huntered

WORK PARTY APRIL 28TH

Member Mike Shea did a great job back-filling the baffle post holes.

News Bits:

-There will be a **work party on April 28th, Saturday**. We will need a large group for a variety of projects, including finishing the sound tiles inside the rifle shed, cutting and fitting the rubber mats onto the shooting benches, repairing and building target stands, general cleanup and possibly weed control. More info soon.

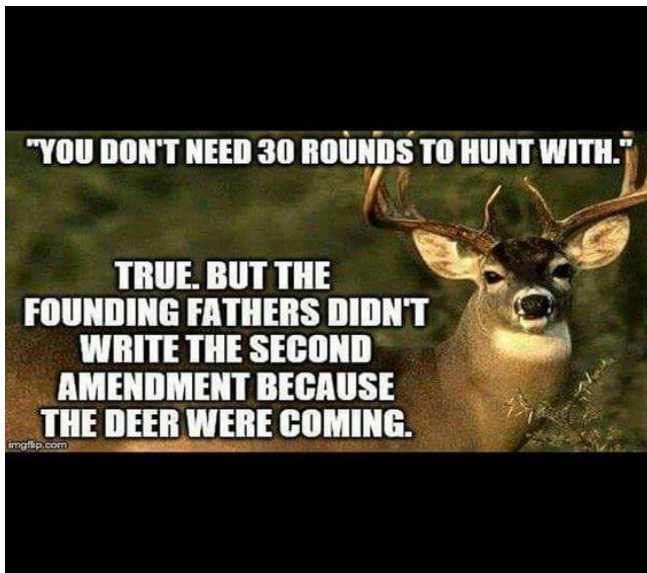

-From Club member Jay O'Connor:

We are moving from Ellensburg to Chapel Hill, NC and I have more ammo than I care to move.

- I have 4 -1000 round bulk boxes of bulk Federal XM193 5.56 boxes I'd sell for \$250 per box.
- I have 1 -1000 round case Federal .45 AE rounds (230 gr) that I'd sell for \$250.
- 1 -1000 round case of Federal Champion .45 (230 gr) that I'd sell for \$250.
- Lastly I have 1 -1000 round case of Federal .40 S&W. 950 rounds are Federal Champion and 50 rounds are Federal HST. I'd sell that for \$250 as well. These are all unopened and in box. The prices are low, but selling on gunbroker and then paying shipping doesn't make sense.

Jay - Cell number 206-747-0054

-We received a notice from Dept. of Fish & Wildlife that they plan to treat the Milfoil weed mat at Lavender Lake. They hope to have it done before the fishing derby. We don't know how long the herbicide treatment takes to work.

Stay safe. Steve Rogers, Editor
