---

**ATTENTION: Orientation** is now a **requirement** for **all** members, and guests - That means **EVERYONE**. Programs given every Sat. and Wed. morning at 8 am at the rifle range. People renewing or applying for membership must now attend an orientation prior to receiving their membership card. When the Secretary has the paperwork she will mail the membership cards. We did have a special orientation just before the meeting Monday night. It was well attended by 22 members. We may do that again if there is enough interest.

### Grants:

The Club received a final payment of \$2949.80 from the State RCO. We built a lot of great infrastructure over the last couple years.

Steve Douglas advises we received a grant for \$5500 from the Friends of the NRA - this will be used for a cement floor and walls to enclose the storage container shed to make a meeting room.

Cindy applied for a K.C. Law and Justice grant to rent a trackhoe and get some earthwork done (ie. berms, target backstops, etc.).

Range looks great with most shooters taking good care of things. No new holes in the baffles. Thanks. Please collect all used targets, brass and other trash and take it all home with you. Pack it in, pack it out. I brought the last trash bag home - it had mice in it and they think they live in my garage now!!! Wrong!!

---

### UPCOMING EVENTS:

General membership meetings are the first Monday, 7 pm, Sunset Café

Board meetings are third Monday at 7.

---

---

**Other News Bits:**

- Propane tank and generator installed with ecology blocks for protection. Next is to set up a panel for future power to the meeting room and drilling under the road to provide power to the rifle, pistol, and future trap ranges.

- Range Master Doug Sargent has installed First Aid kits in the shooting sheds. The Club purchased a Trauma Kit which will be installed in the cabinet in the rifle shed. Doug has built 6 nice benches in the rifle shed and he and VP Larry Haywood are working on some nice rifle racks. Eric Reynolds has offered his assistance. Larry built braces for the shooting tables - they do not wobble any more.

Also, Doug has installed a Cease Fire Alarm for the outside 150 yard rifle range. It is mounted on the east outside wall of the rifle shed and is connected to the rest of the system inside.

We had discussion on staining/sealing the wood baffles - this will be done when it cools a little and before the rainy season.

- Huge meeting Monday including several folks who came for the orientation and stayed. The 50/50 raffle had a record jackpot of \$100. Jan Bennett won the drawing and took home half the pot. The rest goes into the big pot for the drawing at the banquet in February.

- Some Computer Fairy has infiltrated my newsletter form and I can't fix it. So, the next one will probably look different. Until then, enjoy the hot weather and keep yer powder dry.

Steve Rogers,
