News Bits:

-I still have a DeWalt XRP 18v battery and charger that was left at the rifle range after a work party

several weeks ago. Give me a call if you want it back. (674-8653).

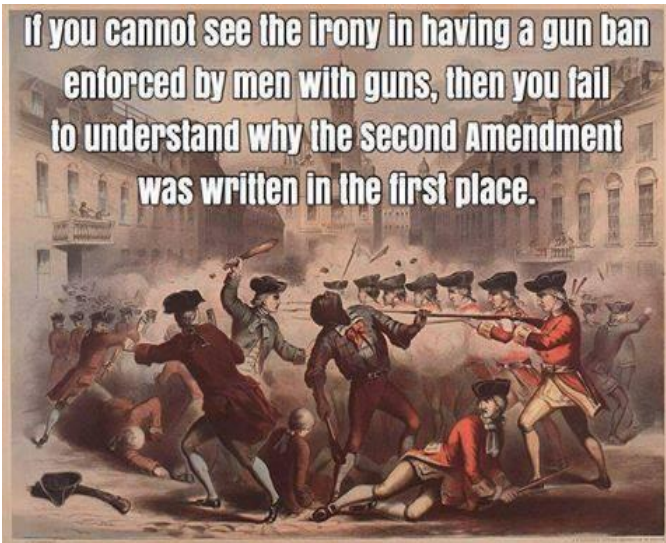

- The dreaded words "**Work Party**" reappear!!! With the baffles done we still need a general clean-up day. And the bird/bee screening needs to be finished inside the rifle shed. Pres. Mark is having ecology blocks delivered on Friday, June 22. These will be placed around the site for the generator and propane tank. The work party will be on Saturday, **June 23rd**, starting around 8 am. We have at least one mower coming, possibly two. We could use some weed-eaters for around the pistol range. Mike Shea did a great job with the rocks on the rifle range. Maybe a few guys with rakes could do some finish work. We always need more target stands built/fixed.

- We passed a motion to purchase a propane tank and get a permit to install it. John Waldenmaier is working on that.

- Scholarship: Our annual scholarship for \$1000 was given to Victoria Kretchman from CERHS. Rita will try to get her to come to the next meeting and talk to us about her plans.

- Doug Sargent has delivered 3 of six benches to the rifle shed. He is also working on gun racks to go between the benches.

- The 50/50 drawing: Winner gets half. The other half of the pot goes into the big drawing at the annual banquet. Every time you attend a meeting your name goes into this drawing.

Have a great June. Steve Rogers, Editor
